Quality Service for Quality Turbochargers

Keeping your turbocharger up and running at all times

Delivering Lifetime Confidence

Through worldwide service

You have chosen an MAN Diesel & Turbo turbocharger – for enhanced performance and improved fuel economy. And you have chosen MAN PrimeServ after-sales service – for unparalleled OEM expertise, and for a complete solution to all your turbocharger needs.

And as the original turbocharger manufacturer, nobody understands those needs better than we do. Which is why we offer comprehensive OEM services 24 hours a day, 365 days a year, across the globe.

Wherever you are in the world, you can count on our team of expert engineers to keep your MAN Diesel & Turbo turbocharger running reliably and efficiently – helping you minimise downtime, reduce costs and extend your engine's life.

Expert advice and assistance around-the-clock

Whether scheduled repairs, routine maintenance or breakdown support – our end-to-end OEM services cater for a wide range of turbocharger types, across the entire lifecycle. What's more, our team of highly skilled engineers can be mobilised within 24 hours for deployment anywhere in the world.

The result? Comprehensive, reliable services for turbocharger maintenance and repairs, available around the clock – giving you peace of mind and your underwriter greater confidence.

The benefits to you

- Cost-effective maintenance for a range of turbocharger types, across the entire life cycle
- High-quality, reliable services based on in-depth knowledge of original turbocharger parts
- Longer engine life with significant improvements in efficiency
- Rapid repair or replacement of damaged parts, reducing downtime and decreasing running costs
- Around-the-clock access to the knowledge of expert engineers, wherever you are
- Supervision of on-site maintenance staff, helping minimise costs

Quality services for quality turbochargers

- Mobilisation of engineers within 24 hours for deployment anywhere in the world
- Scheduled maintenance, repairs and upgrades
- Extensive knowledge of OEM parts and the latest design specifications
- Highly skilled investigative engineers for on-site assessment of turbocharger damage
- In-house laboratory for in-depth damage analysis
- 24 x 7 service hotline for technical issues relating to a range of turbocharger types
